Mr. Thomas E. Keys
c/o The Library
Mayo Clinic
Rochester, Minnesota 55901

Dear Tom:

Would your well-equipped library have anything about the history of abortion? You can imagine why I ask. If there are any standard works on this or if you could comprise and send me a list of references, I suppose I could unearth the books at the Library of Congress. Of course, if you suggest that I come out for a week's research in your hallowed precincts, I would be tempted.

I hope that all is well with you and Betty and the boys, and that your Christmas will prove to be a happy one.

Sincerely,
